# GLOUCESTER

# STREET DIRECTORY

GIVING the location of Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect

From this list, the location of any number on a street, or the location of any public building, can be easily ascertained; as, for instance, wishing to know at what part of Prospect Street No. 87 is located, you look at Prospect Street, and find that Elm Street runs from 81, and Chestnut Street from 93, showing that 87 would come on the right, between Elm and Chestnut Streets

When a street crosses another, numbers (or ciphers) are given on both sides; but when it begins or ends at that street, the number is given only on the side at which it intersects. Ciphers are used where no numbers exist

\* Indicates accepted street. \*\* Streets accepted in part

# For Trade Lists outside of New England

---

*The use of this book* may suggest uses for lists in other States. There are, however, few State Directories issued outside of New England. To get such information one must have access to the *very latest* city and town directories. A few lines of business are fairly well covered by trade directories, but as these are of necessity compiled in large part from the local directories of the year before, and as there are sometimes as many as *seventy-three per cent changes* in a city directory in a single year, it is evident that they can hardly contain the latest changes and new names.

*To perform this service properly* we maintain a very complete Library, containing over five hundred current local directories, and are prepared to compile special lists as desired for almost any locality at reasonable rates.

*We do not keep lists on hand*, waiting for a customer, as is done by many "addressing agencies," who issue quite complete price lists of carbon copies left over from special orders. We are sometimes called upon to correct such lists, which give evidence of having been prepared several years before. There is such a large variation in the requirements for special lists, that to hold copies of one order in expectation of another call for the same list, must result in most cases in that list becoming old before sold. The latest information is worth all it costs, and usually it does not cost more than old lists.

*We will be glad* to make estimates on any work of this nature.

Library Department,

**Sampson & Murdock Co.**

246 Summer St.

Boston, Mass.

*Note:*—We publish directories for thirty-five cities and towns in New England and New York State, and will be pleased to quote prices on these, or directories issued by any other publishers.

# Your Mailing List

Is the best Tool of your Sales Department  
**IS YOURS UP-TO-DATE?**

*Does it cover all the territory you care to?*

*Do you reach effectively new customers?*

**W**E prepare lists of any trade or profession, from our very complete file of current Directories, and are prepared to give intelligent attention to the compiling of special lists.

A typewritten letter with a typewritten salutation and facsimile signature, stating in concise terms the merits of your goods, is one of the best forms of advertising known. By the multigraph process we can prepare letters in quantity that cannot be distinguished from letters actually typewritten.

Phone or write and we will send a sample letter.

# Where are you putting your Money?

## Waste Baskets

**M**ORE than one half of the money spent for advertising yearly is thrown into the waste basket, or used for kindling purposes within 48 hours after publication, and in thousands of cases without first having been read. You are doing this very thing with circulars and other literature business seekers are sending you.

## Ledgers

**T**HE DIRECTORY contains a ledger of advertisements, doubly indexed.

Your card is there when your goods are needed, indexed both alphabetically and by your business classifications.

The book is bought to be used for reference throughout the entire year by the general public and business man alike.

---

**O**UR solicitors find their work made pleasant by calling upon our patrons who appreciate their Directory Ads and unhesitatingly give their renewals each year.

Glance over the Index to Advertisers, in the front of this book and if your name is not there, see that it is in the next issue.
